

Bi-monthly Report

Yanqing Wang

2017.1

Summary of the past

- ✓ Demo of driver's distraction detection
 - **Data Sender**: train model and send data
 - **Data Analyzer**: analyze driver's status and show result (real-time)
 - A **document** on the mechanism of the program

Work strategy for the next bi-month

- maybe increase the performance of the demo program
- research on the algorithm and implement of SVM

Thank you
